Professional Summary

As a final year BE Computer Science Engineering student, aspiring to become a Software Engineer, I am eager to apply my theoretical knowledge and passion for coding to develop innovative solutions and contribute to the world of software development. Seeking opportunities to gain hands-on experience and grow in the dynamic tech industry.

Education

Bachelor of Engineering, Computer Science and Engineering	*2024 Graduate*
Chandigarh University, Mohali, Punjab	*CGPA: 7.63*
Class XII, Comford Public School, Patna, Bihar	*2020*
Central Board of Secondary Education	*Percentage: 69.6*
Class X, D.A.V Public School, Patna, Bihar	*2018*
Central Board of Secondary Education	*Percentage: 82.83*

Major Project

BiteSquare Go – Food delivery mobile application [Link]

- Mobile Application for Food Delivery, developed using react-native and firebase as the backend, has a range of functionalities like user authentication, search food, order food, track order, ordered food history, and manage user profile.
- Efficient food management and delivery assignment through an admin panel with update capabilities.

  Tech Stack: React, CSS React-Native, Firebase

Step Up – Web application for shoes store [Link]

- Web Application for shoes store, having functionalities like filter items by different categories, add items to cart, pagination, make payment during checkout using Stripe, and server-side rendering for better SEO.
- Used secure, and scalable content management system (Strapi) to manage contents of web app.

  Tech Stack: React, Redux, Next.js, Tailwind CSS, MySQL, Strapi Headless CMS, Stripe Payment Gateway

Chat App – Web application where you can chat with your loved ones [Link]

- Added functionalities such as user authentication, user search, viewing recent chats, updating user profiles, sending messages and images, editing or deleting messages, and blocking or unblocking users.
- Implemented social media authentication options like sign-in with Google and Facebook, and reset password.

  Tech Stack: React, Next.js, Tailwind CSS, Firebase

Technical Skills

Java, JavaScript, CSS, React, React-Native, MySQL, Firebase, Linux, Git

Relevant Courses

• Data Structures and Algorithms • Operating System • Database Management System

Extra-Curricular Activities / Achievements

Event: MobileXtreme HackFest 2022
Achievement: Among Top 10 Best Mobile Application
Description: Developed a code learning mobile app with a team of three. Utilized my skills in app development, UI/UX design, and backend integration to create an app that was both functional and user-friendly.

Certifications

- Training Certificate of React from Internshala
- Certification of Java from NPTEL
- Certification of Git & GitHub from Coursera
